

3.2.1. Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge (patents filed, published, incubation center facilities in the HEI to be considered)

Institution has created an ecosystem for Research. It has initiatives for creation and transfer of knowledge.

Institute teachers carried out Research work individually. Every faculty involved in research and as a 'sole author- principal investigator' published research papers. These research papers are published in a journal, which is International Journal, peer team reviewed journal which has an impact Factor more than 6. It has a standard with. ISSN. In all, about 47 research papers were published by teachers.

In the Institute, as an ecosystem for Research, there was a National Conference. Organized . The conference was on the multi- disciplinary mainstream thought. In this conferenced about 72 research paper were presented. The research work was carried out by 41 teachers along with 41 students. The ecosystem of research involves the mentor and mentee relations. The presentation of research paper in National Conference and getting & certificate for publication of research paper to the student was motivating.

The Research ecosystem involves book writhing. Each teacher of this college wrote a Reference book by his/her own web ecosystem. There are about 16 books published by teachers and with ISBN index,

The Research + academic. The Ecosystem of the Institute is up to mark.
