

7.3 – 7.3.1

Portray the performance of the institution in one area distinctive to its priority and trust within 1000 words.

In the modern age of information technology, the college has its own App- Application which is named as 'LN College'. The college website is active, informative and user friendly. However, in this changed advanced scenario, the multiplex changed to OTT, multiplex changed to Netflix, everyone specially students are very technosavey . students prefer the apps like WhatsApp, Facebook, LinkedIn, Instagram, tweeter, YouTube, etc. considering this fact, In college focus on the developing one educational app known as LN college application.

The purposes\motto of development of application by this college are as:

- The student uses to have conversations with mentors, teachers and fellow colleagues.
- The student and teacher can use the app to share the information immediately.
- The users can share the photos.
- The users can undergo the instant messaging.
- The users can undergo the video- sharing.
- The users stay up to date with news and current events.
- The users can stay in touch with teachers, friends.
- The users can undergo research products

The 'LN College' app allows the users to do at least four important things:

Each feature has its own distinctiveness –

- 1) **Story of the day** – is shows the events, activities at the present day. Everyday is eventful day. It may have cultural, sports, NSS- social activities, DLLE activities, extension activities, academic seminars, workshops, research activities, co- curricular event etc.
